DETACHABLE HANDLE

Due to the production technology the cookware is very strong and durable. The items of these series are perfect to use in the oven, thanks to the newly developed detachable handles, which give you safety and comfort at the same time.

Stay-cool detachable ergonomic soft touch handle

Ergonomic Handle
The carefully designed handle fits into your palm, providing a comfortable and secure grip, and pleasant touch through its surface finishing.

Your pans can be stored hanging, saving space for other items in your kitchen

Overheat Protection
The long mid-part section between the handle and the pan will not allow the handle to warm up. The heat resistant handle is covered by soft touch material, which is not in direct contact with the pan, so it does not heat up during use. The hole at the end of the handle makes you possible to store the pan hanging.

oven safe up to 220 °C

ECO FRIENDLY
The cookware is made of 100% aluminum, which is a natural substance.

REMOVABLE SILICONE HANDLES

Due to the production technology the cookware is very strong and durable. The items of these series are perfect to use in the oven, thanks to the newly developed removable silicone handles, which give you safety and comfort at the same time. Before removing the ready dish from the oven, just easily fix the protecting silicone handles on the pot and you can safely move it directly to the table, serving the dish.

oven safe up to 220 °C

The pots are made of strong 100% aluminum, therefore they are extremely resistant to heat and corrosion.
