BAKE WITH ME!

You do not have to worry about your cake, it will not stick at the pans. These pans, similar to the cookware of this line, are coated with 3-layer marble coating. Due to the heat-resistant silicone handles in only a few minutes after baking they become cool.
After carefully checking the temperature of the handles it is not necessary to use gloves for serving.

3-LAYER MARBLE COATING

1

Marble Coating

2

Marble Coating

3

Marble Coating

4

Cast Aluminium

5

Steel

The body is made of cast aluminum with very high thermal conductivity.
